Experience

Field of blood banking 2022 – 2024

Sub Blood Bank

worked at the Sub Blood Bank in Al-Madina General Hospital for two years.

Field of medical laboratories 2021 – 2022

Consultant Laboratory

worked in the Consultant Laboratory, specializing in microscopic analyses and blood sampling for both elderly and children. Additionally, I have expertise in operating medical devices such as chemistry analyzers, hormone analyzers, and complete blood count (CBC) machines.

Field of private medical laboratories 2019 – 2024

private laboratories

worked in private laboratories for six years, specializing in high-quality laboratory devices such as the CL-900 analyzer and the Mindray BS230 used for chemistry tests. Additionally, I have expertise in microscopic analyses, including stool, urine, and seminal fluid examinations.

Emergency Laboratory 2024 – Present

Al-Madina General Hospital

Specialized in performing rapid tests for critical cases in the Emergency Laboratory.
